SIMPLY VERSATILE.

Kubota's mid-sized tractors are simply versatile enough for weekend farming, estate work or even light construction. For starters, Kubota's L-Series tractors from 25-50 HP are unusually practical. Quick-attach implements transform them into a lawn mower, a scraper, a tractor/loader/backhoe and more.

Comfortable seat, excellent visibility, and Reverse Air Cooling helps reduce operator's fatigue.

Optional power steering. World's first optional Slide Shift Transmission. New narrow version less than 4.4 feet wide. Mounting and dismounting are safer, because of wide steps and anti-slip platform. For versatility and power in a mid-sized tractor, simply choose the Kubota L-Series.
